State Dept. phone call on my PA/FOIA request HW 7/16/75

Yesterday morning there was a call from a pleasant man identifying himself as Ross Nesberg of the State PA unit. They have PA and FOIA separate, he says.

His purpose was to identify me further.

Did I have a middle initial? I told him I never use one, that somehow in the past on some occasion(s) there had been a "D" used but that if there is a middle name I do not know what it is.

Was I ever connected with Brandeis University? I knew he was talking about the prof. who is/was Roche's friend and told him that is someone else.

I volunteered there was a chemist of my name who lived at Adelphi,Md.

But I knew of no others.

He was familiar with the McCarran case. I told him if he had read any of it he might have detected that all sources might not be dependable and there thus might be an inaccurate rendering of my name that nonetheless was of me. He said he understood.

It will take about a month, he said.
